GET MIKE A KIDNEY

Mike Fratus is our adored son, husband, brother, uncle and friend. He has Polycystic Kidney Disease and **needs a kidney** transplant.

PKD is genetic and affects at least 600,000 people in the US, results in kidney failure by age 50 in 50% of patients, and there is no cure.

Would you help us find a donor?

Everything you need to know is on our website.

P.S. Yes, he is on the transplant list, but the wait is about 5 years and outcomes with deceased donors are not as good.
